A squad of booze detectives recently made a raid on the soft drink parlors of this district. Their original plans were to confine their attention to a few, but matters turned out that they were required to visit all or none. Practically all the parlors were searched between Coleman and Hillcrest and from most of them samples were taken and convictions were registered in all but one case for breaches of the Liquor Act. This one was that of Frank Celli, of Coleman, who decided to make a fight. His case was dismissed. Upwards of \$2600 were gathered in by the court and sent to Edmonton, mostly for the benefit of the northern part of the province. It is difficult to understand how local retailers should be made victims under the Liquor Act, when they are in a position to show by their invoices that the beer they are selling was purchased in good faith from the wholesaler as being of the 2 per cent. legal variety.

Union between the Methodist and Presbyterian churches in Staveland has been successfully consummated. There was no opposition to the movement, the general opinion being that to defer union any longer would be absolute folly.

Ontario voted bond-dry with a majority of over 200,000. Judging from this fact, bootlegging and blind-pigging must be just as rife in Ontario as in Alberta.

The accident rates in the coal mines of England, France, Belgium, Germany, Austria and Japan are much lower than in America, because all the miners speak the same language.

Deaths from tuberculosis in England and Wales are decreasing rapidly. The figures as given by the ministry of health are 48,312 in 1910, as against 53,073 in 1918, and 59,984 in 1917.

The Methodist church needs nearly \$12,000,000 to carry on their work this year.

MEETING OF CHAUTAUQUA GUARANTORS

A general meeting of the guarantors and all others interested in the summer Chautauqua will be held in The Enterprise office at 7.30 p. m. of Tuesday next.

PAGNUCCO-BATTEL NUPTIALS

The marriage of Mr. U. Pagnucco of Blairmore, to Miss Mary Battel of Frank, was solemnized at St. Anne's Church on Tuesday evening. The ceremony was performed by the Rev. Father Murphy. The young couple will reside in Blairmore.

BELLEVUE CHURCH. SALE OF WORK

The Ladies' Aid of Bellevue Methodist church will hold their annual sale of work, etc., on Tuesday, May the 3rd, commencing at 4 p.m. The sale will be held in the church. The usual stalls for fancy work, handkerchiefs, home cooking, confectionery, etc., will be conducted and tea will be served throughout the evening.

IT CARRIES THE NEWS OF YOUR DISTRICT

It is encouraging to note the constant efforts that are being made by The Calgary Herald to make residents of the city familiar with the affairs and happenings in the towns and rural districts of Alberta. The contact that is thus established cannot but be beneficial to every class in the community. The Herald is publishing country news in commendable volume these days and it is a matter of record that the city people are finding this matter quite interesting as those more closely concerned. It is also noted that The Herald pays attention daily to the news affairs of the United Farmers of Alberta and that this news is presented accurately and without coloring. Mr. H. W. Wood, the head of the U.F.A., figures in The Herald news, probably as much as any individual in the province, not of course as a personal matter, but as the spokesman of the great agrarian body.

FATAL ACCIDENT AT BLAIRMORE

A sad accident occurred in Greenhill, near Blairmore, about noon on Tuesday. The victim was Charles Zimek, of Frank. Zimek leaves a wife and ten children, including two married daughters, Mrs. V. J. Kotas of Frank, and Mrs. Vinel Slopek, of Blairmore.

Funeral takes place this afternoon from the home at Frank and the remains will be laid to rest in the Blairmore Protestant cemetery, Rev. W. T. Young officiating. Charles Zimek was well and favorably known throughout this district, having resided at Frank for nearly fifteen years.

MUST PROVE BOOZE FOR SALE

New York Grand Jury Considers Possession Not Enough

NEW YORK, April 22.—Refusal of a grand jury to indict alleged violators of the states' new booze dry law unless proof was submitted that they had liquor for sale, announcement that expert counsel plans to test the law's constitutionality and the first conviction for violation were outstanding developments in today's police anti-liquor crusade.

After the grand jury yesterday threw out five cases of alleged violation and three more today, its foreman laid down a general rule that persons arrested for simply having liquor in their possession, without proof of intention to sell, would not be held for trial.

FORTNIGHTLY MEETING OF COUNCIL

The regular meeting of the Blairmore town council was held on Monday night. Mayor McLeod and Councillors Gillis, Montalbetti, McDonald, Piccarallo and Bartlett being present.

On motion the minutes of previous regular meeting were approved as read and the following accounts were passed for payment: J. E. Gillis, installment on principle and interest, \$33.33; E. Pondart, for road work \$33.75; P. M. Christophers for road work \$40.00; D. Walker \$5.25; W. Patterson, for road work \$32.75; A. Ayres for teaming, \$23.25; E. J. Pozz, lumber account, \$21.97; Blairmore Enterprise, \$5.50; Ritchie Patterson Co. \$10.00; Alberta Government Telephone \$4.50; Canadian General Electric Co. \$11.21; Blairmore Hardware Co. \$27.50; Blairmore Enterprise \$127.10; Dunlop Tire and Rubber Co. \$61.23. Total \$406.24.

Communication was received from W. D. Syme, stating that he would be unable to make town's assessment.

Several tenders were received from pole dealers in British Columbia and that of a Wyndle concern was accepted and the secretary was instructed to order therefrom 102 poles for the electric light department.

An application was received from the residents of New Lile, for extension of the water service line to that section. The application was filed, the council feeling that residents were not in a position to grant the request owing to that section of New Lile being outside the town limits.

Councillor Montalbetti was appointed Deputy mayor for the next ensuing three months.

The resignation of J. W. Gresham as member of the board of health was read.

HOCKEY BOYS TO BE BANQUETTED

Arrangements are being made for the holding of a banquet at the Cosmopolitan hotel on Thursday night next in honor of the successful champions of the Crows' Nest Hockey League of the past season.

A banquet will be spread for about one hundred people and the players only will be the guests of honor. Tickets are being sold and only those holding tickets will be admitted to the banquet.

A splendid programme will take place, which will include the presentation of championship gold medals to the players and also a new beautifully engraved cup, the gift of the citizens of Blairmore to the local hockey club for competition.

The banquet starts at 8 o'clock sharp and all holding tickets are asked to be on time.

THE LATEST FAD

Now the girls are getting around with the top clasp of their overcoats unbuttoned and cutting away with it as the latest fad. We wonder what would happen if mere man attempted some of these things such, for instance as eliminating his necktie so as to reveal the large Woolworth diamond hitching his collar to his shirt or wearing one trouser leg rolled half way up to the knee and showing the shaggy leg to touch. Chances are about 100 to 1 that wife would order him back to the barn to be dressed before he got half a cent out of the house.—Charlottesville Paper.

HOME BANK BRANCH OPENS

The Blairmore branch of the Home Bank of Canada opened up for business on Monday, next door east of the Cosmopolitan hotel. The new branch is one of the best equipped in the Pass and is already attracting considerable business. Mr. Bird, for some years connected with the Pernie branch, is manager, while W. Randall, of Blairmore, is ledger keeper.

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton
Summer 1875.

By G. G. MABES (Little Clerk).

(Copyrighted)

(Continued.)
Gradually some other clerks came in en route to their different appointments. H. B. Round, an Englishman for Peace River, Scott Simpson for British Columbia, Count Von Bencki (Von Bernstoff his correct name according to Isaac Cowie), an ex-Dragon officer from Prussia who had got into trouble with Von Bismarck and was therefore suffering semi-exile. Fort Qu'Appelle was to be our starting point and there we all went, a brother of Mr. McDonald leader of the party. Mr. Chief Trader, Ewen McDonald, was bound for Isle la Crosse, he having his family with him. Our chief guide was a young French half-breed named Jeanne Homme. A splendid rider and an experienced plainsman. We had travelled together the previous winter and were chummy. One first night out from Ellis we only made about ten miles and just about bedtime I and Jeanne Homme sneaked out of camp, caught and saddled our ponies, and rode back to the fort, where my dogs had been chained up to the pickets. Cautiously entered by the side gate I soon had them loose with the aid of a new file, but had hard work checking their transports at seeing me again. Next day Mr. Ewen remarked in a dry manner, "So your dogs followed after all?" and I innocently agreed to this.

Our trip to Qu'Appelle was uneventful, but my surprise was great on reaching there to note the beauty of the site, and to add to the picturesque of the scene there were some fifteen hundred tepees of Plains Cree in the lovely valley and buffalo were reported only a day or two ride to the southwest. Mr. MacLean was in charge, better known in later years as Fort Pitt MacLean, for in 1885 he and his family surrendered themselves to "Big Bear" band. A Mr. McKim joined us here, fresh from the plains and ordered to Peace River. The days passed busily as a large brigade of loaded carts were being sent to Carlton under escort.

The valley was a stirring place, and it was a fascinating sight for me to watch the Indian braves and note the dancing, gambling and love-making which went on merrily. Little Fox, second war chief of the Cree, was here, and really the most magnificent looking man I ever saw. Eagle feathered, over six feet in height, he was splendidly mounted on a handsome sorrel horse which looked like a thoroughbred. A Henry rifle across his saddle bow, a splendidly mounted hunter at the back with buffalo skin, a quiver full of iron pointed and feathered arrows over his shoulder, dressed from head to foot in buckskin richly ornamented with porcupine quills, he truly looked the ideal warrior from one of the most famous of the north. I gazed at him with admiration and walking up to him held out my hand. He looked down, smiled at the little clerk and gave me two fingers for a salute. At this time it was said the Cree could put seven thousand men in the field. What a contrast from today, when there are only a few broken remnants of his tribe left.

Britain Has Surplus Airships

May Be Forced to Destroy Planes to Save Cost of Maintenance.

LONDON.—Captain Frederick August, the new Air Secretary told the House of Commons, that if no scheme for disposal by the Air Ministry of Great Britain's surplus airships were devised it might be necessary to destroy them in order to save the cost of maintenance and personnel.

International Air Agreements

Geneva.—International aerial agreements are beginning to come into the League of Nations Secretariat for registration. Franco-British and German-Swiss air conventions have been received. They are almost identical in their principal provisions. Both apply only to private and commercial craft.

Quebec Liquor Law

Quebec.—The Provincial Government will grant no delay to the liquor dealers of the province in disposing of their stocks, Premier Taschereau states. All liquor stocks must be disposed of, or handed over to the control of the committee on May 1, when the new law becomes effective.

Irish Outrages Continue

Guerrilla Warfare Proceeds in Erin With Unabated Violence.

Dublin.—Guerrilla warfare in Ireland continues with unabated violence. Some of the cars of a train conveying military police were derailed between Gortalee, county Kerry, and Castle Island, county Kerry, and subjected to machine gun fire from a ruined building. But the attacking party were driven off. The police suffered no casualties.

Nine houses in Tralee were bombed. These included the offices of the newspapers, Kerryman and Liberator, the printing machines of which were wrecked. There were no casualties. Several attacks on police barracks in various parts of the country are reported.

Starving Because Of A Strike

Birmingham, Ala.—Twenty-six thousand persons are at the point of starvation in the coalfields of Northern Alabama. Gov. Kilby was told in an appeal by the Salvation Army. Conditions in the mining districts, it was explained, had grown out of the strike of mine workers, which continued several months.

Cornell was the first American college to possess a professorship of American history.

Mrs. Lloyd George On Electioneering Campaign

Says Bolshevism Is Destroying Cherished British Institutions.

LONDON.—An echo of the Prime Minister's famous speech accusing British Labor leaders of revolutionary designs was heard at Bedford when Mrs. Lloyd George who is speaking in the interests of the new postmaster-general in the Bedford by-election said:

"We have beaten Prussianism; we must now prepare to beat Russianism. The disciples of Lenin and Trotsky are among us, bent on destroying our cherished institutions and bringing destruction upon the nation."

Hon. Frank Kilgour, the postmaster-general, is opposed by F. Riley, secretary of the Postal Workers' Union.

Prohibitionists Are Active

World Crusade to Throttle Liquor Is Planned By "Drys."

Toronto.—A committee has been appointed by the executive branch of the Dominion Alliance to urge action by the Dominion Government that would bring the "order-in-council" against the importation of intoxicating liquors into force at the earliest possible moment. The same committee will confer with the Ontario Government on the matter of the enforcement of the Sandy Bill. The executive decided to support efforts to strengthen the Ontario Temperance Act in every possible way.

The program laid down by the Alliance executive includes preparations to make effective the prohibition laws now in force, the pressing for Dominion prohibition and aiding in a world crusade against alcohol.

Irish Forbidden To Emigrate

Sinn Fein Issue Edict and Threaten Penalties.

Dublin.—Dall Eireann has decreed that "no citizen of the republic shall leave Ireland without permission from the proper authorities." Under the decree, shipping and emigration agents henceforth are forbidden to accept passage money or to issue tickets to intending Irish emigrants, unless they produce a printed permit signed by the Minister of Home Affairs and sealed with the seal of the republic.

Persons disobeying these regulations will be "deemed guilty of a grave offence against the welfare of the state in time of war and dealt with accordingly."

Hatfield Is Banqueted

Professional Rainmaker Feted On His Arrival at Medicine Hat.

Medicine Hat.—Rainmaker Hatfield, on his arrival here from California, was banqueted by the Southern Agricultural Association. A number of Medicine Hat's prominent business and professional men were present and expressed confidence in Mr. Hatfield's undertaking. The towners used in connection with his proposition are being erected fifteen miles northeast of the city at Chapin Lake. Hatfield does not claim to be able to bring moisture from a clear sky but asserts his ability to tap passing rain clouds.

Debate on Militarism

Eight Thousand Canadian Cadets Will Be Trained By Militia Department.

Ottawa.—During the debate on the militia estimates in the House of Commons the estimate of \$450,000 for cadet services came up. Hon. Mr. Guthrie said 8,000 cadets would be trained during the summer.

O. R. Gould (Asinibola) declared there was a "war party" in Canada supporting these estimates. He opposed militarism under present conditions. He deplored the fact that the war party in Canada would lead the country into such large and extraordinary expenditures.

Brig.-Gen. Griesbach (Edmonton) declared that in his section of the country nearly all militia men had enlisted as soon as they could.

The war had proved the necessity of training men the best in the war. In 1914, 1899 and 1884 militia estimates had been criticized "with no greater intelligence" than was shown by critics today. Members had then asked "where is the enemy?" General Griesbach praised the military spirit in Canada.

"If Canada had contained many people such as the Hon. Member for Borne and the Hon. Member for Asinibola, then this country would have curbed its fall between its legs when danger appeared," General Griesbach declared.

Mr. Guthrie declared the estimates to cover national defense were in the \$17,241,000 or \$215 per head. The U.S. defense outlay was over \$13 per capita. The modest program put forward should meet with approval. Pay lists, food and clothing were more than 100 per cent higher now than a few years ago.

Dr. Peter McGibbon (Muskoka) declared the opposition had used the same arguments in 1914 that they were using now. Great Britain was not ready for war until 1915 or 1916. The trained French troops had saved civilization from those days.

Another Record Egg

Portage la Prairie, Man.—The "big egg" record has shifted again, this time from Victoria to Portage la Prairie. Warner Stewart's overgrown prodigy is a Buff Orpington which has an egg weighing seven ounces and is 9-1-16 inches in circumference. Mr. Stewart keeps no ducks, geese or ostriches.

Death of Wealthy Packer's Son

Los Angeles.—John P. Cudahy, son of the late Michael Cudahy, internationally known meat packer of Kansas City, and found dead in his bedroom with his head shattered by a shotgun wound, committed suicide after failing to negotiate a \$100,000 loan with a Chicago bank, Detective Sergeant McMahon declares.

Germany Asks U. S. To Mediate Question Of Reparations

Will Appoint Canadian Minister To United States

Delay Caused Because Government Could Not Decide On Best Man.

Ottawa.—The Dominion Government has not abandoned the idea of appointing a Canadian minister to Washington, Premier Meighen was definite on this when speaking in the House of Commons. "It is intended to make the appointment," he declared. "There is one reason and one only, why the appointment has not already been made," he added, "and that is because the Government has not been able to decide on the best man to occupy this important post."

Debate had arisen on a vote of \$200,000 for Canadian representation in the United States. Speaking on it, Sir Robert Borden, former premier, urged that the greatest benefits would result from the appointment of a Canadian minister at Washington. "The appointment is in the best interests of Canada and of the Empire," echoed Hon. N. W. Rowell, former member of the Privy Council. "If we are to be on the best terms with our neighbor we must be in constant touch with them and understand their frame of mind."

Criticism and approval came from both sides of the House. From the Government ranks, W. F. Cockshutt (Brandon) thought the step an unwise one to take. Conflict between the British ambassador and the Canadian minister would ensue sooner or later. From the Liberal side, Hon. W. S. Fielding—who was one of the Canadian signatories of the reciprocity agreement—argued that the appointment would not be a useful one.

On the other hand, Hon. W. L. Mackenzie King, Liberal leader, held that it would be to the advantage of Canada to have someone represent her at Washington. But he did not agree that, in the absence of the British ambassador, the Canadian Minister should take over the British embassy. Differences of opinion might arise and it would be well to avoid misunderstanding. "Canadian interests," observed Hon. T. A. Cregar, leader of the National Progressives, "could be better looked after by having a Canadian minister on the ground."

The debate, which began in the early afternoon, wore on till after midnight. Liberals pressed for production of correspondence.

"Is it intended to make the appointment within the present fiscal year?" asked Hon. R. Lemieux.

"It is not only the intention but the sincere hope," the Prime Minister replied.

Putting on The Lid

Will They Mandate of Prohibition In Ontario, Says Drury.

Toronto.—Premier Drury, concluding the legislative debate early this morning on the Ontario Temperance Act amendments, referred to the statements of "a man prominently identified with the anti-prohibition forces"—that it would be impossible with the large wet minority to enforce prohibition.

Premier Drury declared: "It amounts to a declaration of anarchy." He added: "If we ever had a mandate from the people for prohibition enforcement we have it now. It is our duty to see that no such doctrine as I have just quoted can be preached and got away with."

Gompers Gives Message

Toronto.—President Samuel Gompers asked for a message to the workers of Canada before his departure for Washington, replied. "The safety of democracy and civilization depends on the unity and practical sense of development of the great international trade unions."

Formation of Wheat Pool By Western Farmers

Canadian Council of Agriculture Will Proceed With The Proposition.

Winnipeg.—The special committee appointed by the Canadian Council of Agriculture to investigate the question of the wheat pool, met here and decided to proceed with the proposition and application will be made to the respective provincial legislatures at their next sessions for charters of incorporation. The action, it is stated, was taken while recognizing the fact that the proposed federal grain inquiry may be directed towards emulating the efforts of the farmers in this direction.

The proposed association will have as its nucleus the United Grain Growers, Limited, and the Saskatchewan Co-operative Elevator Company. The former includes the Grain Growers of Manitoba and Alberta. The purpose of the association will be the co-operative marketing of the grain and other products commonly known as the wheat pool.

The members of the committee present were: H. W. Wood (chairman), Alberta; Col. J. Z. Fraser, Ontario; J. B. Musselman, Saskatchewan; J. L. Brown, Manitoba; Rice Jones and J. F. Collier, United Grain Growers; Hon. George Langley and J. Robinson, Saskatchewan Co-operative Elevator Company.

Washington—The United States Government has refused an urgent request of the German Government that President Harding mediate the question of reparations between Germany and the Allies and fix the sum Germany is to pay.

Germany's appeal, signed by Chancellor Fehrenbach and Foreign Minister Simons, was directed to President Harding and was transmitted through United States Commissioner Dressed, at Berlin. "It was answered by Secretary of State Hughes after a conference with the President at the White House."

The communication from Berlin said the German Government was ready and willing to agree "without qualification or reservation, to pay such sums as the President after examination and investigation might find just and right," and "to fulfil in letter and spirit all the provisions of any award that may be made by him."

In reply, Secretary Hughes said: "This Government could not agree to mediate the question of reparations with a view to acting as umpire in its settlement. Impressed, however, with the seriousness of the issues involved and their effect on the whole world, the Government of the United States felt itself deeply concerned with the question of obtaining an early and just solution. This Government strongly desires that there should be an immediate resumption of negotiations and reiterates its earnest hope that the German Government will promptly formulate such proposals as would present a proper basis for discussion. Should the German Government take this course, this Government will consider bringing the matter to the attention of the Allied Governments in a manner acceptable to them in order that negotiations may speedily be resumed."

Constantinople.—The Greeks continue their preparations for a formidable offensive, which is expected to commence in a few days probably in an effort to reach Kutayah. The Turks are bringing up the last of the conscripts from interior tribes, which, together with the army of Kiazim Kara Bekir, total about 100,000 men. A Turkish communication says five members of the Women's Turkish Battalion have been killed before Ushak, where the Greeks are being pressed.

U. S. Prepared For War

Preparation In Time Of Peace For Active Military Operations.

Washington.—Organization of a war staff headed by General Pershing, to take charge of field operations of the armies of the United States in time of war, was announced by Secretary Weeks.

Recent preparation in time of peace for active military operations, was given by the secretary as the reason for the new organization.

Gompers Gives Message

Toronto.—President Samuel Gompers asked for a message to the workers of Canada before his departure for Washington, replied. "The safety of democracy and civilization depends on the unity and practical sense of development of the great international trade unions."

See Alberta's Greatest Daily Newspaper in the Making

WHEN next you come to Calgary visit the home of The Herald and see for yourself just how a daily paper is made.

Our Circulation Department will take real pleasure in conducting you through our modern plant and in showing you the different processes that enter into the making of a big daily paper.

We will take you through the busy Editorial rooms with their clicking telegraphic and typewriting machines, where the news of the day is collected and made ready for the printed page. A step will take you among almost human line-type machines that change the news into type. You can follow the made-up pages into the stereotyping room where marvelous machines and expert workmen cast the pages into leaden plates. Watch these plates taken by automatic carriers to the big 50-ton press, which rolls off the printed paper complete faster than the eye can count.

Seeing the mailing machines at work, stamping each paper with the subscriber's name and address, see the carrier and street boys scrambling for their papers, and the big trucks rushing The Herald to post and express offices, for distribution throughout the west.

It will be an interesting visit, and after you see the army of skilled employees, the costly equipment and the huge outlay of capital and expense necessary to produce a big daily paper, you will wonder that you buy it at the price you do.

TROUBLE MAKERS

Daniel Webster, in 1888. There are persons who constantly clamor. They complain of oppression, speculation and pernicious influences of accumulated wealth. They cry out loudly against all banks and corporations and all means by which small capitalists become united in order to produce important and beneficial results. They carry on their hostility against all established institutions. They would choke the fountain of industry and try all they could to drive heaven and earth against privilege and monopoly. In a country where property is more evenly divided than anywhere else they rend the air shouting agrarian doctrines. In a country where the wages of labor are high beyond parallel, they would teach the laborer that he is but an oppressed slave. Sir, what can such men wait? What do they mean? They can wait nothing, sir, but to enjoy the fruits of their own men's labor. They can mean nothing but disturbances and disorder, the diffusion of corrupt principles and the destruction of the moral sentiments and moral habits of society.

SCHEDULE OF THE CROWS' NEST BASEBALL LEAGUE

The following is the schedule of the Crows' Nest Baseball League for 1921. The games are to be played on grounds of the last mentioned town in each case. Pincher Creek and Cowley have the option of playing their games with Michel within eight days of the date scheduled, as it is a long journey and the roads may not always permit them making it on schedule date. Michel, of course, has the same option of playing their games with the two above mentioned towns within eight days of the date scheduled. In all there will be ten weeks of the schedule, each town playing a game each week.

THE BACK YARD

Many back yards are abominations to the eye and nose. One finds in them all sorts of litter from an oyster can to old boots. Here the slope of the kitchen are poured to increase odor; which ought to warn every thoughtful person of the malarial influence breeding here, to break out eventually in fevers or diphtheria. If any member of the family dies from one of these diseases, his death is probably lamented as a "mysterious dispensation of Providence," but the minister would say, if he were to visit the back yard, that death was caused solely by a violation of hygienic laws. A very strong argument against dirty back yards is the spirit of deception which is apt to foster in young members of the family, for it is a constant deceit to present a clean and attractive front yard to the gaze of the passer, while the back yard is not fit to be seen. Children should be taught to be clean for the sake of cleanliness and not because outsiders criticize them. Do not allow anything to be thrown about. Have drains made to convey all slops entirely away from the house. Make good walks and let the ground have a fine covering of grass, not weeds. Put up strong supporters for the clothes line. Keep the fence in repair and plant current bushes near it. Set vines about the refuse barrel and train them over it until it is hidden. If you have a receptacle for ashes, let it be something which can be closed and not a row of old barrels offend the eye, and give out a cloud of ashes every time the wind blows. Make it a rule to have the back yard at all times as clean as the front one.

TEACHERS HAVE WON OUT

The following telegram to D. M. J. Conway, principal of the local school and president of the Pass branch of the Alberta Teachers' Alliance, contradicts the report contained in recent city daily papers, stating that the efforts of the Alliance in the matter of salaries had failed: "Strathcona, April 27, 1921. D. M. J. Conway, Blairmore. Recognition negotiation on salaries representation all obtained. Teachers won out. W. Barnett."

THE GOOD CITIZEN

The fire chief of Lethbridge had the following notice inserted in the Lethbridge Herald, and we think it is good enough to insert in this paper as it applies not only to the inhabitants of cities but also to towns, villages and rural communities. Sir: Tell me what you do with your rubbish and I will tell you what sort of a citizen you are. If you dispose of all your old broken, worn out furniture, old newspapers, oily rags, worn out clothing, and all rubbish of every kind you are a good citizen. But if you allow them to accumulate you are not only a careless citizen but a menace to your neighbors. Be a good citizen and help prevent fire by cleaning out all your old rubbish on the clean-up days.

Every Can of B.H. Adds Value to Your Home!

A Tempting Offer to Sell the Old Home

I well observed, an old family residence always has an attraction over an ordinary one. It has property value. It has something which a new house can never define, and the man who is fortunate enough to inherit the house of his forefathers, knows that proper surface treatment means, ultimately, a much larger selling price. A comparatively small outlay for paint is repaid many times over in the high value of your home as an investment.

B-H "ENGLISH" PAINT

The outstanding record of B-H "English" Paint's enviable reputation as a surface coverer is its guaranteed formula right on the face of every can we manufacture. These important basic ingredients (75% Brandram's Genuine B-H White Lead and 25% Pure White Zinc) are to B-H "English" Paint its remarkable covering capacity and durability—it means your home will be covered with a smaller quantity of paint than you would have to use if you bought a paint of lower quality.

Do not be extravagant, therefore buy B-H "English" Paint, for then you will be sure of real economy and real surface protection.

Love of The Wild

— BY —
ARCHIE P. McKISHNIE

Printed by Special Arrangements with Thea. Allen, Toronto, Ont.

(Continued)

He stood beside the margin of the creek this morning, his face aglow with the gladness of the spring. He looked across the swollen waters and waved his arms toward the low-lying V-shaped water-fowl that swarmed and twisted and called in hoarse voices. It was Dave's time of rejoicing. His wild things were coming back to him. Ever long the black duck would sweep above the marshland tinged with shooting green, and trailed by his mate, find his old nesting-ground. The birds that he caught what it "new and understood." He was glad with the gladness of the wild, free thing of water and marsh. The gray-bird sang to him a little song which he understood—full, well, and the wild, soft, and he sighed him a promise that he knew would be redeemed. It was the first day of his coming back, for he, too, had been away from his own nest as the wild bird had been. He turned from the creek and, followed by his pet raccoon, sped upward across the hard-wood ridge until he came to a lower one of tall maple trees. Down across the soft, springy moss that greeted him an insect he went. Dave's joy-season had been born again.

Soon the green shoots would peep above the water and the rush-clumps would rustle lullabies to tiny wide-mouthed fledglings that gapped and stretched in soft nests in the early morning reeds. The blackbirds would swoop back again soon, and the marsh-birds that nested in the low swales in the basswood canoe Dave would explore the old haunts and watch the tiny wood-duck, dove and her mate peer with beady eyes from behind the tangled weeds. He loved the baby wild things with a love too great to be understandable. Across the blue Eau, Point Aux Pins was taking on a deeper tinge of green. Dave would go there and seek out the nests of the timid grouse. He knew exactly where to find these nests and the joy of watching the little baby grouse hide from him. He loved to play hide-and-seek with them; to watch them scamper and dart and then to find them not hide from Dave because they feared him, but because it is the nature of all young things to play at hide-and-seek.

Down across the ridge the sugar-maple fire sent up a spiral of white through the trees and a tiny morning Boy McTavish stood before the boiling sap, dipping from a large kettle into a smaller one and then, with a dash, coming in with a barrel of newly gathered sap on a stone-bowl, stopped his oxen and laid his hand on Dave's bare head.

"How's Pepper?" he asked, smiling as he watched the raccoon roll and sprawl upon the ground.

"Good," answered Dave simply in his own language.

McTavish laughed and proceeded to empty the barrel on the stone-bowl. This done he went over and sat down beside Boy on the log.

"Never saw such sugar weather in all my life before," he declared. "It's a good thing old Noah understands sugar-makin'. Don't know what we'd do without him, 's havin' to keep the pot a-boilin' night and day this way."

"Did the Colonel leave this morning?" asked Boy, his eyes fixed on a bit of blue sky in the open.

"No, but I guess maybe he will this afternoon though," replied the father. "He says that if it don't go to-day Dick'll likely come huntin' him same's he did before."

"Don't said Boy, 'don't it all seem so queer? Think of Gloss being the Colonel's niece, and think what that means to her. She can be educated and all that and the Colonel says he is goin' to make her one of the first ladies in the land. Says he's goin' to take her back to England with him."

Boy's voice was husky and a film dimmed the spot of blue in the skies. "Don't he think a lot of Gloss, though?" agreed the father in emphatic tones of satisfaction. "Dye notice how he watches her, Boy? He says it's just like havin' his little sister back with him again. Seems so odd to hear him take on the way he does, and I guess he's a big man in more than size, Boy. You heard him say as he wouldn't take her away from us, didn't you?"

Boy nodded.

"Yes," he said with a sigh, "and that was big of him; but it would be mighty selfish on our part, dad, if we tried to keep Gloss here now when all he owns is hers, as he says. I guess it's best that she goes along with him."

CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is due to Catarrh, success is general if the sufferer persists in the use of Catarrhazone, and thereby drives Catarrh out of the system. Penetrating through the passages of the ear, the soothing vapor of Catarrhazone relieves the inflammation, destroys the Seed of Catarrh and thereby allows nature to reassert herself. For Catarrhal Deafness, pain over the eyes, plugged nostrils and other symptoms associated with Catarrh, use Catarrhazone. You'll see more than pleasant the quick improvement in your condition. Two months' treatment, One Dollar, sold everywhere; or the Catarrhazone Co., Montreal.

Maybe we can get a chance to see her once in a while. I don't think the Colonel will let her go. Gloss sort of belongs to us Bushwhackers, you?"

"Well no," mused McTavish. "I don't think he will. He asked me to explain just what he intended to do for her, and I couldn't do it. Wanted to tell you that she was to have an education and was to live in a big, beautiful house in England. I said, 'No, Colonel, it's your place to tell her yourself. I'd likely break down on the job. And so he's going to let her stay here, Boy.'"

Dave came over and put his raccoon on Boy's knee. The animal rubbed its own nose against Boy's cheek, and he softly stroked its thick fur.

"I guess me 'n you is built for the bush, Pepper," he said. "We understand, me 'n you and Dave, what it means to belong to just one place."

Dave on the day after a girl's voice came ringing.

"Boy," it called, "oh, Boy."

Boy sprang and the Colonel, dad, he cried. "He's told her and she's just so happy she wants to be known."

"Hello, Gloss," he called back, "just in time for a sugar-oh. I was gettin' to tell you about it."

The Colonel was puffing and wiping his brow on his handkerchief.

"Gracious," he cried, "our Gloss is a tartar!" said Dave. She has me about wild."

He drew Boy aside and spoke to him in a low tone.

"I can't understand the darling," he confessed. "She thinks a whole lot of me already. She says she can see that. But she actually turned white when I told her what we thought would be good news the day she came. 'Boy know?' And I said, 'Why, dear, of course he knows, and he's tickled to see you.'"

Boy bit his lips.

"Of course," he agreed; "I'll see what I can do."

"Yes, do," cried the Colonel. "She seems to think what you say is about right."

Boy tried to laugh, but the attempt was a failure. He passed over to where Gloss stood with Dave's hand in hers.

"There's someadder-tongues just peepin' up in the valley, Gloss," he said. "Would you like to see 'em?"

She passed down the path beside him, and when the tickle of hazel leaves told her the others she put her hand on his arm.

"Tell me, Boy," she said wistfully, "why am I to go away from you after all this?"

She looked at him with wide eyes and waved her hand outward.

"And all this," she added with a sob.

"Why, Gloss," began Boy, then stood unable to go on, his whole being revolting at the very thought of leaving that spot where he had been so long. "You see, I've managed to say at last, 'you're the Colonel's niece. You come of different stock from us, Gloss. He has my amount of money and we all want you to go with him and be educated like a lady. Oh, well, miss you, girl, but there is to it. We want you to go. I'll be best for you."

She caught her breath.

"Of course, if you want me to go," she said, "why—why, Boy, I'll go."

"Now for the flowers," he said bravely. "I think I would rather go back," she whispered. "I—I don't want the flowers."

They walked back slowly and in silence. McTavish and Injun Noah were filling fresh wood beneath the kettles.

"I guess we'll all go up to the house," said the big man. "Noah'll watch the boiler for an hour or so."

They went back along the mossy, springy bushpath, drinking in the breath of wild flowers, drinking in the songs of wild mating birds.

"I'll come after her again in two weeks," spoke Hallibut softly, when Boy, as they walked side by side up the path, told him that Gloss had consented to go with him. "God bless her; she has made a new man of me. You don't know what she has done for me. I've been so long for years and years—and now it's just like havin' little Phoebe back with me again. Oh, but God is good."

They were a happy enough gathering at dinner. The Colonel told some of his amusing stories and Paisley recited his own experience in hunting bee-trees. Boy spoke little, but seemed to enjoy listening to the tales of the old men. He sat all winter again into the sunshine. Widow Ross was there, and she and Mrs. McTavish had their heads together, and Paisley, who had drawn a little apathy with Mary Ann, said he knew they were plotting a custard or something equally delicious. And Mrs. Decollet was there also; and her and her large wife and all the little Decollets with the big Biblical names. Paisley, with his family, and in fact all of Bushwhackers' Place seemed to be congregated to the feast. The good tidings that McTavish's Gloss had come into a "fortune."

After dinner was over Colonel Hallibut, beaming and smiling, waved his hands all round.

"What I've missed by not knowing you good people long ago," he exclaimed, "I'm going to make up for this time on. As soon as I get our Gloss comfortably settled in a young ladies' college in the old land I'm coming back here. I love all this wild place just as you all love it. I know you will let the little girl and me share it with you at times."

"We'll all be glad to have you," shouted the Bushwhackers.

Gloss was standing with one hand on the old ash-leach and now she lifted her face and looked at the Colonel.

"Uncle," she said softly. The big man turned, then came over and stood beside her.

"Dear little Gloss," he said, patting the hand that grasped his. She raised her head and looked across at Boy. Then she held out her other hand. He came over, his heart beating wildly; the blood pounding his temples. He took the hand and stroked it with a caress belonging to childhood.

Colonel Hallibut's brows puckered, then he smiled.

"Well, I'll be—" He checked himself, and glanced from one to the other of the young people. "Suppose we understand one another," he said. "Gloss," he asked, "do you—do you love Bushwhackers?"

"Yes," she answered simply.

"And you love all this big, beautiful wild place?"

"So much!" she said.

"And you don't want to leave it, dear?"

"No."

The Colonel's mouth twitched and the girl patted his cheek with her hand.

"You love it, too?" she smiled.

"Why not all stay here together?" surely there is enough for all."

"Hurrah," seconded the Bushwhackers.

"That's a splendid idea," he nodded. "A splendid idea. Good people, I'll take you at your word. I'll come and we'll live together. I can't say that I want to leave this place since I've been initiated into the Brotherhood of the Unmarried."

That had scratched its purple tally-mark in the fringed west, and the ducks were sweeping in from the south in loose flocks, when Boy and Gloss paused before a spot beside the path.

"That's poor Joe's grave," said Boy. "I guess I miss him in awful lot since the birds are comin' back and the world's alive again."

"Poor old Joe," sighed Gloss. "He won't lie and watch and sleep by the old ash-leach no more, Boy."

He drew her hand and said, "Let's not talk of Joe to-night, girl," he said. "Let it be you and me."

And so they passed up the path and the streak of crimson faded to orange in the low sky, and from orange to gray-drab in the low sky, and the path a little gray-bird sang its song.

Registration of Grimm Alfalfa

Seed Grown by Western Canada Farmers Can Now be Obtained.

The first registration of Grimm alfalfa seed grown in Canada has been made by Don H. Bark of the Irrigation Investigation Branch of the Canadian Pacific Railway at Brooks, Alberta.

Mr. Bark has been advised by Mr. L. H. Newman, secretary of the Canadian Seed Growers' Association, that the Grimm alfalfa seed grown by six different farmers near Brooks is being registered and that he is sending them certificates of registration. The fields of these growers were inspected last year and the seed offered for registration as Grimm. As a result of the registration, farmers will now be able to have registered seed grown from this stock. This marks a tremendous stride forward for the Brooks district. Seed growers and distributors have been clamoring for this seed for years, and will now be able to procure the pure Grimm alfalfa seed in Alberta.

Newman, secretary of the Canadian Seed Growers' Association, that the Grimm alfalfa seed grown by six different farmers near Brooks is being registered and that he is sending them certificates of registration. The fields of these growers were inspected last year and the seed offered for registration as Grimm. As a result of the registration, farmers will now be able to have registered seed grown from this stock. This marks a tremendous stride forward for the Brooks district. Seed growers and distributors have been clamoring for this seed for years, and will now be able to procure the pure Grimm alfalfa seed in Alberta.

She Followed Instructions.

Among the instructions which a mistress had given her new maid from the country was one to bring in a glass of milk each evening at 7 o'clock. The first evening Jane brought in the glass clasped tightly in her hand.

"Don't do that again; it's bad etiquette, Jane," ordered the mistress. "Always bring it in on a tray."

Next evening Jane appeared with a tray full of milk in her hand.

"Excuse, madam," said the maid. "Do you want a spoon, or will you lap it up?"

Money in Hog Raising

Brood Sows Nearly As Valuable As Good Shorthorns.

There is a pronounced rebound in favor of hogs throughout Ontario and Eastern Canada. The short-sighted policy of many farmers last fall in selling their brood sows is bringing its natural reward in disappointment to those now unable to take advantage of an exceptional demand for breeding stock. Brood sows are today reported to be selling, in some districts, to within \$5.00 of good grade shorthorns. The following list are contained in the last reports on farm conditions made by the Ontario Department of Agriculture:

"Brant (county) says that good Shorthorn grade cows at an all-day sale brought only about \$95.00 while brood sows fetched around \$90.00. Small pigs are unusually scarce on this market this spring and run from \$12.00 to \$16.00 a pair, according to age."

"Brood sows are in good demand. Auction sales according to Kent, Simcoe and Huron represented the best last quarter prices ranging from \$75.00 to \$125.00."

"When the sacrifice of sows was at its height last fall, packers, realizing the inevitable effect, issued reiterated warnings to farmers. Because of the information then issued the work in a sweep to the abattoirs was stemmed. Many farmers must now realize how valuable that information was to them. This quick rebound in hogs only confirms the business creed of those loyal to the livestock industry that the "in-and-out" especially in hog breeding, is his own worst enemy."

Canadian Bacon Exports.

In 1920 Canada supplied Great Britain with exactly twice as much bacon as Denmark did. This is a great change since the prevalent opinion in 1913, when Denmark sent into Great Britain over eleven times the Canadian total.

Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind-Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aiding the assimilation of Food; giving healthy and natural sleep. Farmers are Optimistic

Prospects Generally for a Favorable

Crop Season are Good.

The open weather last fall enabled farmers to do more work than usual on their land, and much is ready for seeding. "What the total crop will be it is hard to say at present. It is generally believed that it will not be larger than last year—by as large—when the area in crop in Alberta was nearly eight million acres, in Saskatchewan nearly seventeen million acres, and in Manitoba somewhat more than six million acres. There are, however, several districts where a considerably larger area will be put into crop as compared with last year. For example,

farmers near McLeod in Southern Alberta say they will have a hundred per cent. greater acreage in crop than last year. A much larger area of land was summer-fallowed than usual last year and this will be put into crop. In the Lloydminster and Battleford areas a considerable number of new settlers will have their land in crop for the first time, while the older settlers generally will seed larger acreages. Farmers generally are optimistic as to their prospects during the coming season.

The principal reason why coins are struck, and not cast, is that molten metals contract on cooling. Thus counterfeit coins, which are always cast, show fatal variations in size, which authentic shaped coins do not.

Canned Goods a Great Help

BY LORETTO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

America has reason to be proud of its canning industry which has reached a high point of perfection. Canned goods are located close to where the product is most plentiful and afterwards sent to other places, where perhaps this product is unavailable in the fresh state. Then, too, by the aid of the canners we are able to have food all year round. The season of production is short for many things, and unfortunately, human beings must be fed all year round.

Try to jot down all the canned foods you can think of. Then take a first-class grocer's catalogue and look under "canned products." Perhaps it will surprise you to learn that the couple who have but a tiny kitchenette in which to prepare their food, may obtain a can of codfish cakes. The fish freed from bones is flaked and mixed with mashed potato.

In the twinkling of an eye, from a small can one can mould six fish cakes and heat them in a little fat on the frying pan.

Then there is canned beef stew. Lots in one can for two or three people. From canned corned beef, one can make the most delicious hash by the addition of a little chopped onion and as much cooked potato as meat.

People often complain that a food is tanned. Food tastes canned because they have lost all the oxygen they possessed in the process of canning. But this oxygen may be put back into the food by spreading it out on a shallow dish and exposing it to the fresh air for a couple of hours.

This is called the process of re-oxygenating it. The food tastes like fresh. Just try it.

A fussy man told me the other day that he could readily tell that I had used fresh crab meat in the salad he was eating. He declared he could tell it from that "awful" canned stuff.

But he was only eating crab meat that had been aired or re-oxygenated for a couple of hours on a big china platter in the cold, fresh air.

Take the case of spinach. Diet books, the doctors and everyone generally interested in our physical well-being tell us to eat spinach. But outside of the fact that fresh spinach is almost unobtainable most of the year or too expensive for the average person, it takes a great deal of time and patience to prepare.

It is all very well to tell a busy mother to feed her family spinach, but with the thousand and one things the mother has to do, we can scarcely blame her if she instead puts a dozen potatoes into the oven to bake, because they require practically no preparation.

But in the cans, the spinach is entirely prepared. No dirt, and no unwelcome leaves. Try this method of serving it: Drain off the liquid from a can of spinach. Set this aside to be used as the basis of a cream of spinach soup. Spread the spinach out on a china platter and re-oxygenate it.

Chop it fine and add a little salt and a teaspoon of sugar. For a No. 3 can of spinach, allow a cup and a half of white sauce. Rub together three level tablespoons each of flour and butter. Add one and one-half measuring cups of milk.

Cook stirring and if you have not put much salt into the spinach, add half a level teaspoon to the white sauce. Reheat the spinach in this. Put it into a serving dish. Chop the whites of two hard boiled eggs and put around the spinach as a garnish. From the hard yolks, make golden rain. Press these through a strainer, so they will descend on the spinach in tiny little bright yellow bits.

Millers' Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy eaters of pain.

Education in Alberta

Rapid Growth of Educational Facilities of the Province.

One hundred and seven school districts, covering an area of eighteen hundred square miles, were formed in Alberta in 1920, an indication of the rapid growth of the educational facilities of the province. At the end of 1920 there were 4,553 schools, or nearly six times as many as in 1906. During the past fifteen years an average of about two hundred additional schools have been formed per year, and attendance at schools has increased from 24,245 in 1906 to 1,267,567 in 1920. The amount of Government grants to schools increased from \$170,315 in 1919 to \$1,018,068 in 1920.

HOW RHEUMATISM CAN BE OVERCOME

Not By Rubbing, But By Enriching the Blood.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather may start the tortures of rheumatism, but it is not the cause. The cause is in the blood. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood, which will shortly leave the victim pampered and helpless. Liniments, hot applications and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by purifying the blood.

This new blood drives out the poisonous impurities, and the rheumatism disappears. If you are a sufferer from this painful malady, begin the use of Dr. Williams' Pink Pills and see how soon the pain and stiffness of the joints fade away. Among those who have benefited by the use of these pills is Mr. Freeman Irving, Baxter Harbor, N.S., who says: "Some time ago my blood was in a terrible condition, leaving me very much run down, and with boils breaking out on my body. To add to my misery rheumatism set in, and I not only suffered greatly from the pain, but could only get around with the greatest difficulty. After trying several medicines without much success, I decided to give Dr. Williams' Pink Pills a trial, as they had been warmly recommended to me. I think I was in luck. Boxes after boxes, but the results met my every expectation, as both the boils and the rheumatism disappeared. Naturally I feel that I cannot praise the pills too highly."

Now you can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from "The Dr. Williams' Medicine Co., Brockville, Ont."

Chinese Coming to Make Study of Canadian Railroads.

For the purpose of studying railroad operations, Chinese students are coming in Canada to spend three years in the service of the C.P.R. according to a statement made by G. M. The students will arrive on the steamer Empress of Russia, due shortly.

RHEUMATISM Is Yours Acute or Chronic?

In either case you'll get such results from good old "Nervine" which has five times the pain destroying power of ordinary remedies. Nervine gives results because it penetrates to the source of the pain; because it contains ingredients that destroy rheumatic pains. It is the unusually big case that proves the power of Nervine. Suffered for years and old; used internally and externally, for many years, and it did the trick.

Picturesque Dress Of Dark Red Taffeta

By Marie Belmont.

The quaint modes of Victorian days are recalled in this lovely dress. It is originated in dark red taffeta. No sleeves are united with the tight-fitting bodice, but around the armholes and the neck line a tiny ruche of white lace is attached. The chief decorations on this dress are bands of very tiny black beads. This trimming outlines the bodice and is also used with good effect on its lower part. The skirt is somewhat longer than those that have been so fashionable, and undoubtedly anticipates the new length. It is elaborated with ruffles of taffeta and bands of beads.

Flaming Meteorite Falls in Sea And Is Seen From S.S. Saxonia.

The Cunard liner Saxonia, from London, reports when 15 miles off Chelmsford Head, south of Halifax, a meteorite was seen to explode and disappear, leaving a vast amount of smoke, which was visible for over ten minutes. The strange sight was witnessed by some of the officers, passengers and part of the crew. They first saw a big burst of flame in the sky, and then a long column of smoke, probably 50 feet in length. They believe that the meteorite fell into the sea.

The wireless operators on the ship report having had difficulty with their apparatus, and they believe that the meteorite had something to do with the electrical disturbance.

German Color Scheme.

Germany seems to be undergoing rapid color changes. A few weeks ago things were reported as "black." They were told the people were feeling "blue." Heavy snow storms were experienced throughout the province the early part of the week. In some places the snowy mantle measured six to eight inches in depth. The Pass, however, escaped the storm, beyond a light shower.

Blairmore has been having a clean-up week, and thanks to the co-operation of a large number of citizens the board of health are able to report some districts in the town a very respectable condition. But there are a large number of citizens who, instead of removing refuse to the nuisance ground to be destroyed, have dumped same in back lanes. They are liable to prosecution for so doing and it is to be hoped that some party or parties will be caught in the act of so evading the requirements of the public health regulations and be punished.

The High River Times remarks: "A dry squad of four liquor detectives visited Clareholm recently, and after a careful search did not locate any whiskey, but got six dozen bottles of what was said to be 'near beer.' What puzzles us is that these detectives should travel from Edmonton and Calgary to search for offenders of the liquor act, when they could remain in either of these cities and, if they were enthusiastic about their work, they could make a round-up of offenders on this Avenue in Calgary that would bring in a fine revenue to the province."

The auction sale conducted at the Drewry ranch, Cowley, on Wednesday afternoon, was a success in every particular. High prices were obtained for farm implements, furniture and machinery, while considerable bargains maintained in connection with the stock. Some of the high-bred and greatly prized Percheron stallions, valued by the late Mr. Drewry away into the thousand-dollar mark, were knocked down for less than \$500 each, while the highest price reached for brood mares was \$585. Most of the stock was purchased by the Donkhobors, President Peter Verigin being on hand with a number of horse experts. Several choice prize-winning stallions and mares were bought by C. H. Rogers, of Lethbridge. About five hundred people from different parts of the province were present. W. T. Eddy was auctioneer and was ably assisted by an expert horseman, from Calgary, and B. O. Morrow, of Cowley. Luncheon was served at noon in the Drewry mansion, now conducted by Miss Drewry, sister of the late J. C. Drewry.

BLAIRMORE, ALBERTA, THURSDAY, APRIL 28TH, 1921

IT HAPPENED NINETEEN YEARS AGO

(From The Frank Sentinel, May, 1902.)

Born, on the 7th, to Mr. and Mrs. Harry Howard, Blairmore, a daughter.

The opening of the Blairmore coal mine will be done under the charge of Superintendent Wilson, formerly with the Crows' Nest Pass Coal Co.

The coke being turned out here by the company's ovens is of the very finest quality and fully equal in appearance, hardness and quality to that of Fernie, which is considered by experts the best in the world.

Late Tuesday evening, little Eva Howard, of Blairmore, had a narrow escape from drowning in the raging waters of the river, and but for the bravery and quick action of Miss Douglas would undoubtedly have met that fate.

The first white woman to live in The Pass was Mrs. Robert Connolly, who is still a resident. She came in with Mr. Connolly in May, 1892, to the Sulphur Springs, where the Sanitarium Hotel is now situated, making her home there for six years.

During the week the Crow river has been on the rampage, overflowing its banks, washing away bridges, obliterating our apologies for roads and in places undermining the railroad track; doing everything, in fact, in the shape of damage that a swift flowing mountain stream can do when swollen by melting snow and torrents of rain.

Yesterday afternoon one of the most appalling mine disasters that has ever taken place in the Dominion occurred in the neighboring town of Fernie. By it nearly two hundred miners were swept into eternity without a moment's warning and scores of families, who but a few short hours ago were happy and contented, are today grief stricken.

Blairmore Lodge, No. 68, meets every Tuesday at 8 p. m., in the Oddfellows' hall. Officers for ensuing term: E. Eckmier, N.G.; W. Patterson, V.G.; W. T. Patterson, R. S.; James Crowder, F.S.; W. Knight, Treasurer.

Crows' Nest Encampment No. 8, meets on the second and fourth Wednesdays of the month in the I.O.O.F. hall at 8 p. m. Officers: James Crowder, C.P.; E. Eckmier, S.W.; A. Morency, R.S. and F.S.; J. Montalbetti, Treasurer.

Crowview Rebekah Lodge, No. 66, meets the first and third Thursdays of the month at 8 p. m. Social evenings every alternate Thursday. Officers: Miss K. Archer, N.G.; Mrs. Jessie McVey, V.G.; Mrs. Randall, R. S.; Mrs. Fraser, F.S.; Mrs. Archer, Treasurer.

Bellevue Lodge No. 118, meets every Monday night at 8 o'clock in the I.O.O.F. hall at Bellevue. A. Dryden, N.G.; T. Bradley, V.G.; H. Peters, Treasurer; A. Hallworth, Secretary. Visitors always welcome.

Ray of Hope Rebekah Lodge No. 67, meets the first and third Wednesdays of the month in the I.O.O.F. hall, Bellevue, at 8 p. m. Sister Bradley, N.G.; Sister Prescott, V.G.; Sister Goodwin, Treasurer; Sister K. E. Hallworth, Recording Secretary; Bro. Cousens, Financial Secretary. All Rebekahs welcome. We go in for a good time.

Visiting members of above branches of the Order cordially invited to attend these meetings.

As the Kansas City Star remarks, the Germans must not only pay the mark but to it.

The Crows' Nest Pass Motors announce the sale of quite a number of new Studebaker and Chevrolet cars.

The death occurred at Lethbridge on April 21st of Andrew Grisak, father of Alex. Grisak, well-known hockey player of Coleman, at the age of seventy years.

In Alberta in 1920 one hundred and seven school districts, covering 1800 square miles, were formed. In 15 years the school attendance increased from 24,245 to 121,567 and government grants in fourteen years increased from \$170,315 to \$1,018,608.

Henry Cameron plowing on his uncle's farm at Salem, Va., and receiving a salary of \$10 per month, unearthed a small metal pot which contained treasure worth \$14,903. About \$13,000 was in gold, \$600 in silver and the balance in old currency.

Three British Columbia elk—a fine three-year old bull and 2 two year-old cows—have just been shipped by express from Vancouver to St. John, N. B., whence they will sail for England on April 16. These elk are destined for the zoological gardens in London. This is the first shipment of elk ever made out of this province to England.

A local boy was asked the other day by a parson the meaning of regeneration to which he replied "Why, it's just being born again." "And wouldn't you like to be born again?" inquired the clergyman. No reply to this, even under parental pressure, until finally in desperation the truth came out: "I ain't taking any chances on being a girl!"

Asking compensation for the death of her husband and damages for injuries sustained by herself in a railway accident at the C. P. R. crossing at Blackfalds on September the 21st, 1920, Mrs. Ureula Berdice Dougher is suing the Canadian Pacific Railway for \$60,000 damage, \$30,000 for the loss of her husband and \$30,000 for injuries to herself. Also \$200 for damaged clothes, \$1300 for loss of auto, and \$65 per month salary from September until date of judgment. The accident happened when the auto was approaching a crossing at which it is claimed the crossing was steeper than that allowed by law.

THE PASS FIFTEEN YEARS AGO

(Blairmore Times, May 16, 1906.)

Born, on May 14th, to Mr. and Mrs. Harry Howard, a son.

A new hotel building is being erected at Bellevue by Mrs. Rudd.

Jack Fisher, who has been on a visit to the Old Country has returned home.

A brass band has been organized at Bellevue, with W. Cooper as bandmaster.

The survey for the race track has been completed and grading will commence at once.

Mrs. James Paden, who has been ill for some time in the Lethbridge hospital, returned home this week.

The grand opening dance given last Wednesday evening by D. C. Drain at the new Blairmore hotel was well attended and thoroughly enjoyed.

A number of smelter employees, of Iola, have been called upon the last few days by the representative of the new smelter at Frank, Alberta, Canada, who is trying to induce them to accept positions with the new company. It is said that the zinc fields in that district have been sufficient to warrant the erection of a smelter. —From the Iola, Kansas, Record.

The Bellevue mines, situated directly on the railroad just below the Frank slide and which are owned and operated by the West Canadian Collieries Co., are now shipping some 400 tons of coal per day. The class of coal mined at Bellevue is a superior quality of steam and coking coal and is used almost exclusively by the C.P.R., who practically take the entire output of the mine.

The manufacture of a firelighter from clay deposits found on his land is being undertaken by a Waldeck, Sask. farmer. This deposit is the only known one of its kind on the American continent, although considerable quantities of this clay are also found in Germany. The firelighter is in the form of a brick. It is soaked in kerosene for a few minutes, and when it has absorbed a quantity, a match is applied. The brick will burn for half an hour with a steady flame, and when exhausted can be replenished with kerosene and used indefinitely. Other uses to which this clay can be put are: kalsomine, filler for paper, Dutch cleanser, white shoe polish, and brick or tile of the very best quality.

A resolution urging the creation of Vancouver Island as a separate province will be submitted by Acting Mayor Todd to the city council of Victoria. The motion is a sequel to the resolution on the order paper at Ottawa with regard to the establishment of a province in the north of British Columbia, and embodies sentiment which has been voiced before.

Japan produced 14,000,000 electric light bulbs in 1920.

HILLCREST HAPPENINGS

(By Our Own Dear Felix)

Dan Howcroft is adding another room to his house in Mayfair.

Please hurry up with those houses, Jack! Do Bob's first, as he is getting anxious and is fidgety—in fact he is hard to get along with just now through over-worry.

Ed. Royle has accepted the position of organist and choirmaster at the church. It is his intention to build up a good choir, having had considerable experience in this class of work, both in England and Canada, the last position he held being with the St. Paul's church at Kamloops, B. C.

People in Hillcrest are again warned to keep a sharp look out for one going by the name of O'Neill. His methods are so quiet and deceiving-like that strenuous efforts will have to be taken against him. His headquarters are supposed to be in Blairmore. He's a thorough gentleman, but then—

The friendly game of football played here on Saturday last between Hillcrest and Blairmore was, in spite of the cold weather, enjoyed by all the fans. Although the result was 2 to 1 in favor of Blairmore, the game showed us we have some very good local material and there is no need to import anyone; but it would look better if some of the young fellows, instead of hugging the touch-line, would get into the game and show us what they can do, instead of being critics to those who are trying to do their best to keep sport moving. And another thing, let the fans bring a little "chicken feed." The old stunt of having no change when the hat comes around is played out. Sport has to be financed like everything else.

Everyone in Mayfair are busy with their fences, putting the finishing touch to the new suburb.

From all accounts, Ed. Royle is open to match his horse against any in Hillcrest, Fumigali's colt preferred.

Hillcrest is the only live village in the Crow, hammers and saws and grubbers and shovels going from sunrise to sunset—and then some.

Miss Mary Norton is here from Calgary, visiting her parents in Peaceful Valley.

Everyone will be pleased to read that Mrs. William Hutcheson is recovering nicely from her recent operation at the Holy Cross hospital, Calgary.

Tom Price, as trainer of the football team, is a busy man these days, licking his men into shape. It's a good thing we have several who take an interest in sport, such as, Salt, Price, Butler and others. And we surely have one or two dead heads. The writer often wonders whether they ever think of anything but themselves and work and the six-inch spikes with which they nail their dough down.

No improvement in the post office as yet.

Jim Fisher is in charge of the picture show during the illness of W. Cole.

VICH?

"Now, boys," said the teacher. "There were two rich men; one of them had made his fortune by honesty and industry, while the other had made his by fraud and roguery. Which of these two men would you prefer to be?"

There was a moment's hesitation then young Solomon Isaac's hand went up as he quietly enquired, "Vich one made the most?"

At Gleichen the dog tax scale runs: \$3 for the first dog, \$5 for each other dog and \$10 for bitches

SOME BRIGHT THINGS WRITTEN AND SAID BY GILBERT K. CHESTERTON

We make our friends; we make our enemies; but God makes our next-door neighbors.

A man will stick to what he likes when there is no time to remember what he likes about it.

I have just finished a comedy, the only female character in which I do not understand in the least.

Woman is like a gun—her range is limited. But in the home she hits a man like ten thousand of bricks.

When Mr. Chesterton arrived in America he said that he had come here to "lose his impressions of the United States."

I am a journalist and so am vastly ignorant of many things, but because I am a journalist I write and talk about them all.

An absent-minded man is a good-natured man. It means a man who if he happens to see you, will apologise.

Seemingly from the dawn of man all nations have had governments; and all nations have been ashamed of them.

If Americans can be divorced for "incompatibility of temper" I cannot conceive why they are not all divorced.

Thieves respect property. They merely wish the property to become their property that they may respect it more fully.

The most poetical thing more poetical than the flowers, more poetical than the stars—the most poetical thing in the world is not being sick.

Honor is a luxury for aristocrats, but it is a necessity for hall porters.

Dirt is evil chiefly as evidence of sloth; but the fact remains that the classes that wash most are those that work least.

The poor have been rebels, but they have never been anarchists; they have more interest than anyone else in there being some decent government. The poor man really has a stake in the country. The rich man hasn't; he can go away to New Guinea in his yacht. The poor have sometimes objected to being governed badly; the rich have always objected to being governed at all.

STORAGE STOCKS ARE LARGE

Supply of Eggs, Apples and Butter Held Far Above Average.

WASHINGTON, April 22. Storage stocks of eggs, apples and butter on April 1 far exceeded the average for that date, the department of agriculture announced today.

Eggs in storage amounted to 1,884,000 cases as against a five-year average of 250,000 cases. Barreled apple holdings amounted to 300,000 more than last year and 85,000 barrels above the six-year average.

Boxed apple holdings on April 1st were the largest on record, amounting to 500,000 boxes more than were held last year and 2,000,000 more than held April 1, 1919.

Creamery butter exceeded last year's holdings by 2,000,000 pounds and the five-year average by 5,000,000 pounds.

The 48,866 immigrants from the United States, who came to Canada in 1920, brought in cash \$18,166,962.

COWLEY HAPPENINGS

Arthur Brockwell made a business trip to Calgary this week.

Mrs. Elwin Tustian, of Innisfail, is spending a few days here visiting relatives.

Mrs. James Leigh has gone to visit her sister, Mrs. Crawford, at Drumheller, for a while.

Mr. and Mrs. J. G. Swinney, of Fishburn, were the guests of Mr. and Mrs. M. A. Murphy for the week end.

John Kemmis, M.L.A., has returned to his home after the very strenuous work of the legislature, looking very fit.

Seeding is in full swing here, but has been slightly delayed by the inclement weather of the past few days.

Mr. and Mrs. Jeff McDonald have moved to Calgary, after having lived for several months on the George Buchanan ranch.

On May the 8th, the Cowley Oddfellows will celebrate the 102nd anniversary of the Order, by attending divine service in a body.

Peter Verigin, president of the Christian Community of Universal Brotherhood of Alberta, Limited, is in town for a few days.

The dance given by the Athletic Association on Friday night last, was very largely attended and a splendid time was had. The Banff orchestra furnished the music.

Next Sunday evening the Rev. W. Day will deliver his farewell address here. We understand that a young student by the name of Moore will look after this mission for a period of twenty weeks.

The Cowley ball team has joined the Crows' Nest League and a schedule has been arranged, giving five home and home games. Last year, though there was no league, the Cowley team played with most of the Pass teams and acquitted themselves well. They should do better this year, and it is hoped that they will receive strong support from the citizens to make the league a success.

W. O. Evans left on the 7th instant for Rochester, where he has undergone a critical operation for the face. He is under the care of Mayo Brothers, and is now progressing favorably at Warrell hospital.

A dog was run over by two autos in quick succession on Sunday afternoon last. The animal rolled over and over so often and so quickly that he hadn't time to worry much about the hereafter; but regained his feet, barked once or twice and went home apparently unhurt.

One of the busiest hives in The Pass is the garage of the Crows' Nest Pass Motors. Opened only a few months ago, they are now being rushed to capacity and the necessity for doubling the size of the garage and the staff becomes daily more apparent.
